CRISTINA

Certifications and Quality

CRIBA24213 | Blade Series | Matt Black

Manufacturer management systems

CRISTINA S.r.l. holds management-system certificates issued by Kiwa Cermet Italia S.p.a. The original certificates, including their site schedules, are included with this SKU.

Management system	Certificate / stated validity
ISO 9001:2015 quality management	12208 - A | 11 April 2026 to 22 April 2029
ISO 45001:2018 occupational health and safety	20136 - I | 19 December 2025 to 29 December 2028

The ISO 45001 certificate also states conformity to UNI EN ISO 45001:2023.

Certified scope

The certificates cover the design and manufacture of sanitary, timed and electronic taps and drainage systems for baths, showers and washbasins under the Cristina and Silfra brands. Site-specific activities are listed in the certificates. Continued certification is subject to annual surveillance and the issuer's conditions.

Contractor submissions

These are company management-system certificates. Product or market approvals for CRIBA242, its finish or a specific project require documentation covering the exact supplied article. Cristina's data sheet directs certification requests for particular markets to its sales contact.
