CRISTINA

# Care and Maintenance

CRIRT16534P | Rota Series | PVD Brushed Rose Gold | Matching metal controls

## Routine cleaning

Clean finished surfaces regularly with a neutral soap-based detergent and a soft cloth, such as microfibre. Rinse thoroughly to remove cleaning residue and dry gently.

## Protect the surfaces

Do not use acidic or caustic cleaners, their derivatives, abrasive powders, scouring pads, or metal or non-metal abrasive sponges. Avoid abrasive polishes. Keep construction chemicals and aggressive cleaning residues away from the fitting.

## Outlets and servicing

If flow becomes reduced or uneven, ask a competent plumber to inspect the appropriate outlet, aerator or filter by the manufacturer method. Isolate the water before servicing. Use the correct service key and protect finished surfaces from tools.

## Replacement parts

Quote CRIRT16534P, purchase details and photographs when requesting assistance. Match the exact model and production revision. Retain historical and material/finish qualifications in the original spare-parts sheet.

## Selected finish

PVD Brushed Rose Gold; Matching metal controls. Screen and printed colours may differ from the actual surface.
