Installation Instructions

CRIFA18051 | Faro Series | Chrome

Before installation

Installation must be carried out by a competent plumber. Check the full SKU, finish and supplied components. Verify the original drawing against the supplied product before drilling or making cutouts. Isolate the supplies and protect the finished surfaces.

Model and assembly

Dual-control wall-mounted external bathtub mixer, with mechanical mixing, 2-outlet automatic diverter, spout length 180 mm, metal anti-scale hand shower, fixed support, long-life hose

As described in the product overview.

Connections and fitting

Flush the pipework thoroughly before connecting the product. Follow the connection sizes, mounting positions, sealing sequence and depth limits in the appended Cristina instructions. Follow the pressure and temperature limits stated in the manufacturer leaflet. Use the supplied fixing parts and keep service connections accessible.

Commissioning and handover

Open the supplies gradually, inspect the fixing and connections, and check for leaks. Check each fitted hot and cold control, diverter, outlet, shower and waste function. Resolve any leak before handover. Give the owner these instructions and the care guide.

Original manufacturer instructions

The original leaflets linked by Cristina for CRIFA180 follow, including shared Cristina assembly diagrams where applicable. Follow the model and supplied parts. Product pictures are not installation templates.
