

Blade

CRIBA103

Blade embodies a perfect fusion of aesthetics and cutting-edge engineering. Its design is defined by sharp, precise lines that sculpt its form, giving it a sophisticated and distinctive look. These elements are not merely decorative but contribute to a seamless integration between spout and body, reflecting light with crystal-clear precision and creating a modern aesthetic. The lever, strategically positioned above the faucet body, resembles a thin blade and is the result of advanced technological development that emphasizes and completes the artistic vision of the design. With a Ø25 cartridge for countertop models and an aerator limiting flow to 5.62 liters per minute, Blade stands out for its water efficiency and adaptability to various settings, making it ideal for contemporary spaces where style meets sustainability. Available finishes include: chrome, matte black, alux, brushed rose gold PVD, glossy and brushed black chrome, brushed metallic, and brushed gold brass PVD.
