

CRISTINA

Care and Maintenance

CRIRT12234P | Rota Series | PVD Brushed Rose Gold | Matching metal controls

Routine cleaning

Clean finished surfaces regularly with a neutral soap-based detergent and a soft cloth, such as microfibre. Rinse thoroughly to remove cleaning residue and dry gently.

Protect the surfaces

Do not use acidic or caustic cleaners, their derivatives, abrasive powders, scouring pads, or metal or non-metal abrasive sponges. Avoid abrasive polishes. Keep construction chemicals and aggressive cleaning residues away from the fitting.

Outlets and servicing

If flow becomes reduced or uneven, ask a competent plumber to inspect the appropriate outlet, aerator or filter by the manufacturer method. Isolate the water before servicing. Use the correct service key and protect finished surfaces from tools.

Replacement parts

Quote CRIRT12234P, purchase details and photographs when requesting assistance. Match the exact model and production revision. Retain historical and material/finish qualifications in the original spare-parts sheet.

Selected finish

PVD Brushed Rose Gold; Matching metal controls. Screen and printed colours may differ from the actual surface.
