Finish and revision notes

References ending in three dots are incomplete part families. Complete the appropriate finish-dependent reference for 51 Chrome only after checking the original exploded view and installed revision. Historic and optional references in the original notes are not interchangeable by default.

Before 2003: CRIVT0986Q00 (cold) and CRIVT0987Q00 (hot). These are historical references; identify the installed revision before ordering.

The manufacturer notes CRISC3649P... and CRISC3598Q... for other finishes. Do not substitute those finish families for the chrome references without manufacturer confirmation.

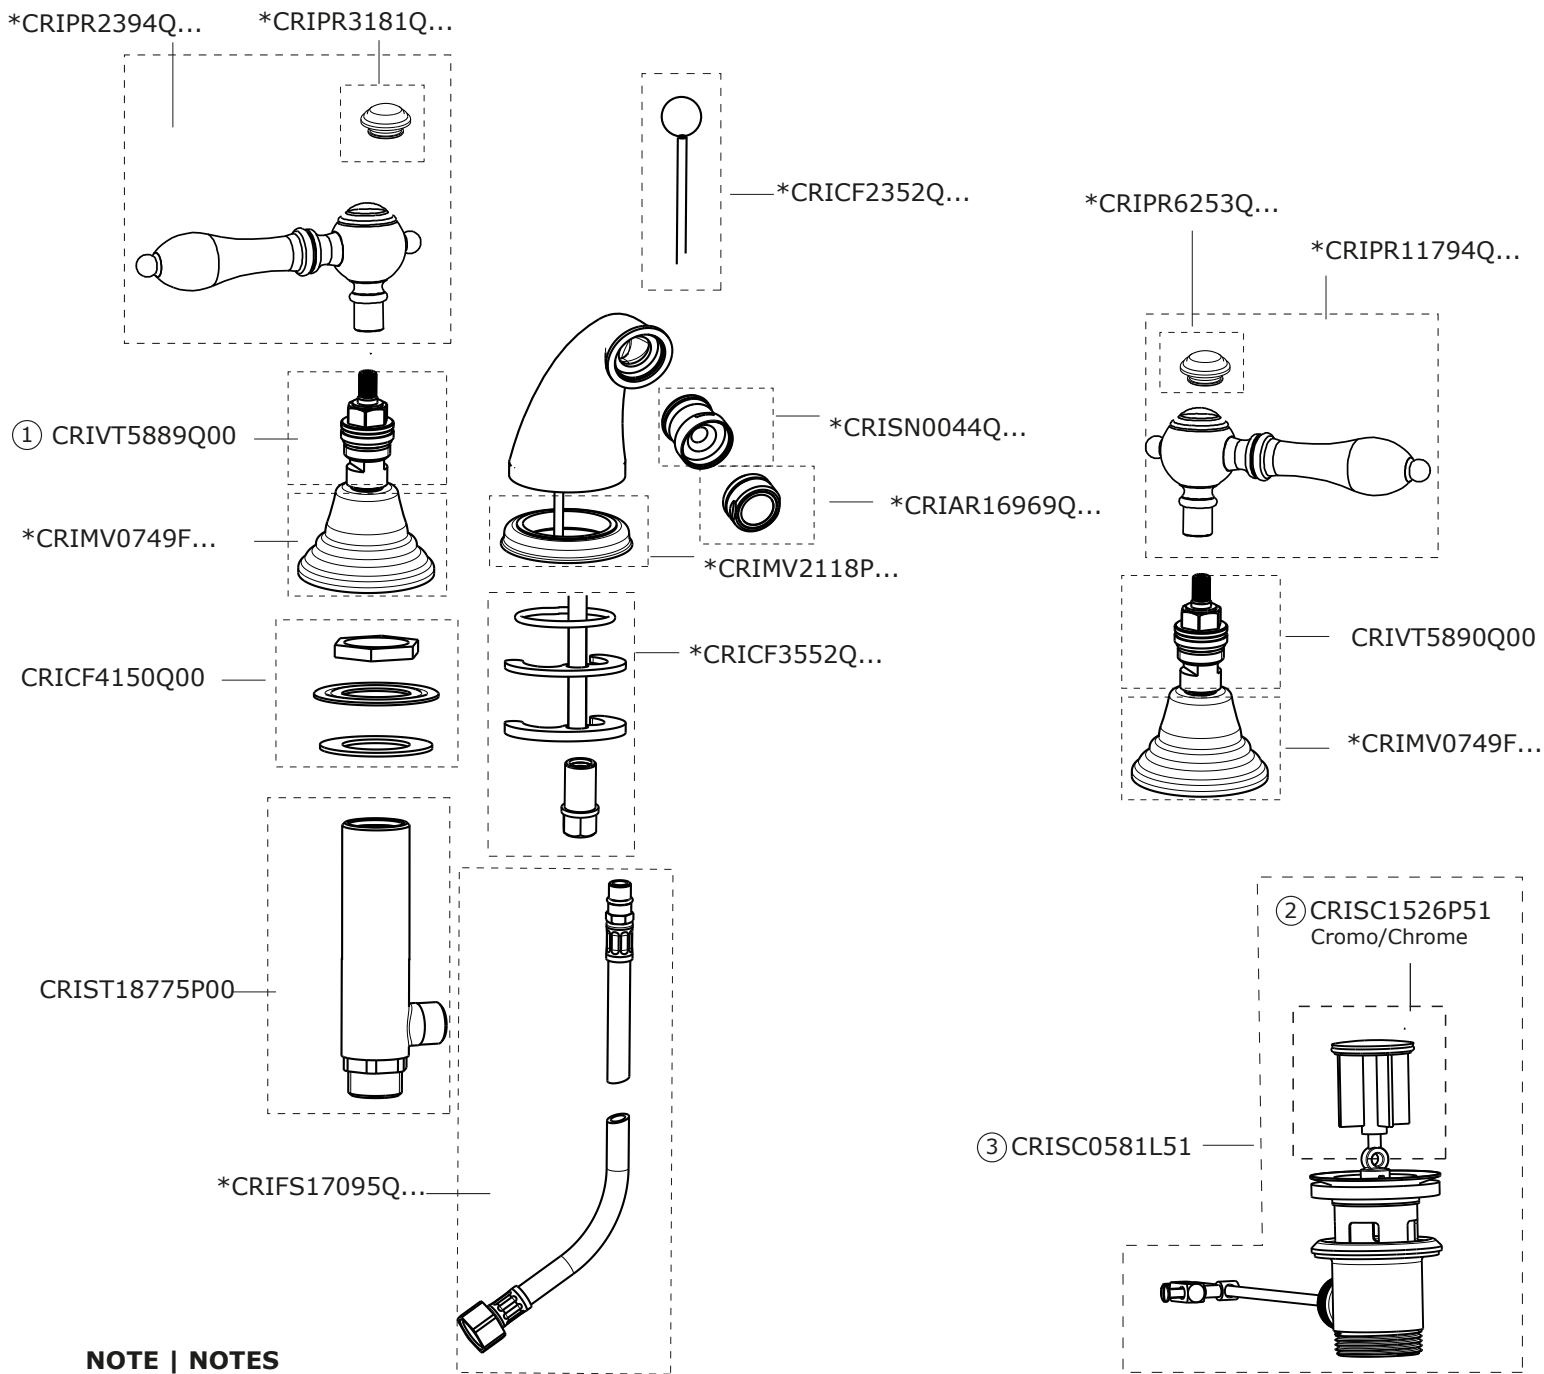

Original manufacturer exploded view follows. Its component callouts, historical notes and finish qualifications are retained.
